EXPERIENCE

Software Engineer

2023 June - Present

MoofLife l San Francisco, CA | Remote

https://www.mooflife.com/

- Developed and maintained a production-grade social web platform serving thousands of daily active users.
- Built responsive and high-performance user interfaces using React.js, Next.js, Redux, JavaScript, HTML, and CSS.
- Applied modern frontend best practices to write clean, maintainable, and scalable code.
- Integrated RESTful APIs with efficient state management to improve data handling and application performance.
- Collaborated closely with UX/UI designers and backend engineers to deliver high quality and engaging user experiences.
- Implemented mobile-first and responsive designs, ensuring cross-browser and cross-device compatibility.
- Improved application performance, SEO, and user engagement using Next.js features and image optimization.
- Developed real-time frontend features using Socket.IO and WebSockets to support interactive user experiences.
- Worked with backend technologies including Node.js, Express.js, and MongoDB to support API development, data handling, and frontend-backend integration.
- Debugged and resolved frontend issues using systematic problem-solving and root-cause analysis.
- Worked independently while effectively managing multiple tasks in an Agile Scrum environment.

Trainee Software Engineer

2022 Feb - 2023 May

99X Technology l Colombo , Sri Lanka

- Contributed to frontend development for Tracified, a blockchain-powered enterprise traceability platform for supply chain management.
- Developed new features using Angular and TypeScript based on UI/UX designs and client requirements, modernizing legacy web applications.
- Fixed critical bugs and optimized code to ensure smooth functionality, improved performance, and enhanced user experience.
- Collaborated in Agile development environment, adapting to evolving project requirements and participating in sprint ceremonies.
- Worked closely with cross-functional teams including designers, backend developers, and product managers to deliver high-quality features on schedule.

EDUCATION

B.Sc. (Hons) in Information Technology, specializing in Software Engineering

SLIIT | 2019 – 2022
